

Climax of Year 6 and Year 7 Science Club

The end of the summer term saw the climax of the Science Clubs for the year. It was a great event where our Year 7's took a group of Year 6 students and gave them a lesson they had prepared as part of their challenge to gain their Science Ambassador award.

The evening came to an end when all the students went over to the main hall to receive their certificates and badges. Year 6 students achieved the BA CREST Investigators SUPERSTAR award for successfully completing twelve superstar activities and the year 7's gain 2 awards BA CREST Investigators MEGASTAR award for completing 3 projects and The Young Science Ambassador's (YSA) Charter award. As a YSA they have agreed to help to promote science at home, in school and in the community by:

- sharing their enthusiasm for science
- encouraging and helping others to take part in scientific activities
- exploring science ideas and how they affect everyone

The Science Club starts this year for Year 7 on Thursday 26th November and for Year 6 Thursday 3rd December and then fortnightly. Dates for the club can be found on the web site.

All year 6 and 7 Students are welcome.

Lucy Tillotson - Specialist Schools Coordinator
