

Crofton School GCSE French Higher Vocabulary Booklet

Name: _____

How to learn and revise vocabulary

Learn vocabulary in sessions of about 10-15 minutes at a time, 3 or 4 days a week.

Aim to learn one topic a week. Each topic is sub-divided into sections; aim to learn one section during each learning session and carry out a review of the topic on the last day before your test.

You could highlight in different colours, for example put the words you already know in one colour and the words you need to work on in another colour.

All the topics from this booklet are on Quizlet. You could learn them from Quizlet first and ask a friend or family member to test you from this book.

You could make your own lists, mind-maps, booklets or posters of vocab.

You could make flashcards or index cards.

You should also aim to use this vocabulary booklet when you are writing essays. When you are planning your essay, look through the vocab lists and decide which words you are going to use.

Once you have learnt a topic, you need to keep going back to it and reviewing it. Do this after 7 days and again every 4 weeks. Keep a record of what you need to review and when. There is a page provided for this.
